**II. Using information from the Reading 25A (p. 317), answer the following questions:**

1. What was a midwife likely to have in the bag she brought with her?
  
2. Did midwives follow the same procedures with all women, or were different strategies used for different women?
  
3. What was the status of most midwives (give an answer that shows specifics and variety)?
  
4. How did midwives get their training?
  
5. What was used to help women's milk come?
  
6. How did one prepare hyena wombs in order for them to be helpful to women in childbirth?

7. What helped women give birth when placed under their feet?

8. What were the signs that a woman was carrying a male child (according to Pliny)?

**III. Find an image** of ancient Roman obstetric tools on line and either append it or describe it in detail.
