### Elevator Speech

My name is Unique Kimmel, and I am a recent graduate from UNCW with a B.A. in Communication Studies. I love people and I thrive under pressure, so of course I'm looking for an entry level position in event planning. It would be the perfect atmosphere to hone the skills that I already have such as floral and fruit arrangements, menu planning, napkin origami. As you can tell I also like to use different mediums to enhance events. I love to create food and décor to amplify a theme at an event. I have some portfolio examples of my catering and decorating abilities that I believe, like my name, are one-of-a-kind.
