**II. PROFESSION & PAST EXPERIENCE:**

02/2006 - Present                    Survey Specialist II  
(RTI) Research Triangle Institute, International  
My responsibilities are to support day-to-day activities of telephone, mail, web, and field studies, and provide support to field staff and project management. I contribute to the preparation and presentation of research proposals, while working with study managers to develop, implement, and monitor research designs. I prepare and present reports to the client, coordinate communication between respondents, field staff, and project management. I assist with the recruitment of field staff and assist with the planning and implementation of training sessions for field/telephone staff. I also write and review sections of field manuals and documentation.

08/03– 06/05                    Graduate Research Assistant  
University of North Carolina Wilmington  
Dr. Nora Noel's BEACH Lab ([www.beachlab.com](http://www.beachlab.com))  
(*Behavioral Examination of Alcohol Caffeine and Health*)  
I worked in a clinical environment as part of a research team conducting studies of alcohol and caffeine on human subjects. I measured alcohol-caffeine interactions in a clinical setting following strict protocol. I was responsible for training interviewers to go out into the field to screen (via survey) and recruit participants. Participants who were eligible, were later scheduled to come into the lab where my team and I followed strict protocol dosing participants with different levels of alcohol and caffeine. Cognitive performance was assessed
