

Student's tests sorted by id number

Overall final exam scores were a bit lower than expected. You can see some summarizing statistics at the bottom of this document. However, we had 15-20 folks absent every day so I'm not inclined to offer a curve.

In terms of the final grades we had 18 folks earn some form of an A for the class, about 40 earned some form of a B and 25 earn some form of a C. We had 8 Ds and some Fs—largely folks that stopped coming to the class but forgot to drop it. Hope the class was useful for you. There are several other options to follow up on in COM that count as some part of basic studies. COM 110 is public speaking, COM 116 is performance of literature and counts as a fine arts, COM 160 is media literacy and will get into the issues many of you explored in the documentaries, and COM 220 is interpersonal communication
