

Students

In order for your TurningPoint Clicker to record data you must first register it with your class in Blackboard. To do so, follow these instructions:

- 1) Log into your Blackboard account as you normally do.
- 2) Open the course for which you want to register your clicker. NOTE: You must register your clicker for each
- 3) individual class that will utilize this technology.
- 4) Click “Tools”.
- 5) Choose the “TurningPoint Registration Tool”.

- 6) Type in the 6-character code on the back of your clicker twice.

Response Device ID:	<input type="text" value="15B97A"/>
Confirm Response Device ID:	<input type="text" value="15B97A"/>

- 7) Click “Submit”

That’s it! You have now registered your clicker for your class. Remember that you must do this for each individual class that will be using this technology.
