This was the best course I have taken at UNCW. It motivated me to think and really learn the material. The information presented is challenging, and Dr. Pawlik can still be enthusiastic after teaching this course for so many years. I love how he emailed us an outside research opportunities also. I learned so much valuable material in this class that I will be able to use in the future!

I am a graduating senior and this is the first time I have answered 7 (very effective) for question 16. I look forward to attending class every day. Dr. Pawlik is an engaging lecturer and is able to convey information in an organized manner and most importantly, not be boring! I learned very much in this class and Dr Pawlik was fair in his grading and examination. I have heard this class is very hard — it was somewhat difficult, but not too hard. Classes are supposed to be challenging. ~~This class should be required for all Marine biology majors firstly because of the material, and secondly so they can have Dr Pawlik as an instructor.

Excellent course that should be a requirement for marine biology. Many of the principles learned in class appear in other courses. ~~Found~~ Found that the lecture was too similar to Bio 206 however lab was different and informative. Teaching style was extremely effective - look forward to using some of Dr. Pawlik's teaching methods ~~in future career~~ in future career as TA and professor.

I enjoyed this class. My only complaints are that the book was not very useful and many of the dissections were confusing. Labelled pictures would help in identification of organs.

This course was very interesting and Dr. Pawlik is a great instructor. The only thing I would reccomend changing is lecturing after the exam. It was really hard to do the exam in 30 min. and after it was over my brain was too fried to listen to lecture.

It is obvious that Dr. Pawlik is very passionate about the subject, which makes it easier to learn (or try to learn) the material. This is not an easy class. There is a huge amount of material in a short time, but it is interesting. I think Dr. Pawlik did a great job.

The exams take adjusting to but truly test knowledge base.
Lab is extremely useful for understanding material
It is not an easy Class, so don't take it thinking that it will be, but Dr. Pawlik is up front about that and is willing to help if you ask.

Comments

The class was challenging but I definitely learned a lot. The amount of time required for each lab was a bit excessive as sometimes I'd be in the lab for 4 to 5 hours, which is more than even in 400 level courses I've taken.

Comments

Class had alot of information presented, but it was very interesting. Teacher knew what was teaching which helped as well. It was a tough course, but the knowledge is worth it.
