

Partial Participation

Some students with severe and multiple disabilities cannot fully participate in school activities. What would be examples of ways you could include a student with disabilities in the following situations? You can decide the details for each situation.

Situation	Disability	Partial Participation Example
Drawing in Art Class	Hand shakes, has trouble holding pencil	
Playing Volleyball	In a wheelchair	
Conducting a science experiment with microscopes	Blind	
Writing math problems on the board	Handwriting very poor, cannot reach board well	
Hiking in the woods to collect leaves	Uses a walker	
Musical performance	Deaf
