

Dear Mr. President,

1/27/98

I think you should have a show about "Women in history." A lot of people want to know about women and what they've done to help our country. There have been many women heroes, and they should be recognized. You could do the show like *Wishbone*, except all the shows be about women in history instead of characters from a book. An idea for a show is Anne Frank. You could go to the place where they hid for so long and do the show right there. Everyone will get the chance to see how Anne lived. A lot of people haven't heard or seen her story. Well, it's time they do! So, please take into consideration my ideas and respond when you make your decision.

One night last Friday there was something strange going on. I just thought well, there must be a storm but I also heard strange noises, noises I've never heard before but I just went to sleep. About 2 hours later the noises were so loud I woke up it was the strangest noise you could ever hear. I got up and went down stairs I heard the noises outside so I opened the front door walked outside I heard it then in the back so I walked walked to the back and to my surprise there was an alien. It was green and was about 3 feet tall so I was a little relieved when I was 2 feet taller than it. It walked toward me & screamed and yelled Help! Help me! I screamed my dad woke up came down stairs and noticed the alien he was startled to see it. He went up stairs got his pepper spray came back down and sprayed the 3 foot alien with it he then put it back on his space ship and it flew up. I never saw it again but I always wonder if I will ever see it again.
