## Nouns (Again)

### Terms:

- **declension:** spelling group for nouns and adjectives.
- **case:** the form a noun takes to show its use in a sentence. In Latin, the use of a word in a sentence is shown by its ending.
- **stem:** the central part of a noun or adjective that shows its meaning.
- **ending:** the end of the noun or adjective, that changes according to the rules of its spelling group (declension) in order to show its use in the sentence.

### Cases (categories of uses of words in sentences):

- **nominative:** the case used to show subjects and words describing subjects
- **genitive:** the case used to show possession
- **dative:** the case used to show indirect objects, usually with a “to” or “for” meaning
- **accusative:** the case used to show direct objects and objects of some prepositions
- **ablative:** the case used to show the object of some prepositions.

## Forms: First declension

(These are the forms all first declension nouns take to show their uses in sentences.)

### *first declension endings*
