

JMP 11 and JMP 11 Pro software are available for all faculty/staff and students and may be downloaded on any computer, both university and personally owned. The license file must be updated annually, please contact TAC and request to be added to the distribution list.

In some cases, it may be necessary to use the IP number 152.20.8.14 in place of seashare.uncw.edu

Installing JMP11Pro Software:

(windows)

\\seashare.uncw.edu\sas\JMP11 Pro\JMP\JMP_Pro\11_0\Windows

or <\\152.20.8.14\sas\...>

Click on setup.exe

(Mac)

Hit command-K to connect to server, just like when connecting to Sammy or People – THIS HAS TO BE DONE WHILE YOU ARE ON CAMPUS, CONNECTED TO THE CAMPUS NETWORK. Enter <smb://seashare.uncw.edu:139> as the address.

Then when it asks you which directory to mount, choose SAS. Then navigate to

JMP11 Pro\JMP\JMP_Pro\11_0\Macintosh

Run JMP-11.dmg

IF YOU HAVE PROBLEMS MAKING THIS WORK, GO BY THE TECHNOLOGY ASSISTANCE CENTER (TAC) ON THE FIRST FLOOR OF THE RANDALL LIBRARY FOR HELP.
