

Index

- adjoint operator, 122
- area element, 229
- associated Laguerre polynomials, 222
- associated Legendre functions, 151, 205
- average of a function, 56, 195

- backward difference, 88
- beat frequency, 280
- Bernoulli, Daniel, 2, 3, 156
- Bessel functions, 156, 180
 - first kind, 156
 - Fourier-Bessel series, 159, 200
 - generating function, 158
 - identities, 158
 - orthogonality, 158
 - recursion formula, 158
 - second kind, 157
 - spherical, 215
- Bessel's inequality, 162
- Bessel, Friedrich Wilhelm, 156
- Bohr radius, 222
- boundary conditions, 4, 117
 - nonhomogeneous, 34
 - time dependent, 39
 - time independent, 34
- boundary value problem, 4, 235
- breaking time, 248
- Burgers' equation, inviscid, 246

- cakes
 - baking, 195
 - cylindrical, 199
 - rectangular, 196
- Cauchy-Euler equations, 285
 - nonhomogeneous, 288
- central difference, 88
- characteristic equation, 272, 285
- characteristics, 16
 - fan, 253
- Charpit equations, 261
- circular membrane, 176

- Clairaut's Theorem, 236
- Clairaut, Alexis Claude, 236
- classical orthogonal polynomials, 139, 142
- classification of PDEs, 27
- complete basis, 163
- conics, 33
- conservation law
 - differential form, 245
 - integral form, 245
- conservation laws., 244
- constant coefficient equations, 272
 - complex roots, 274
 - repeated roots, 273
- convergence in the mean, 162
- cooking
 - cakes, 195
 - turkey, 214
- coordinates
 - curvilinear, 224
 - cylindrical, 228
 - spherical, 225
- cosine series, 68
- curvilinear coordinates, 224
- cylindrical coordinates, 228

- d'Alembert's formula, 16
- d'Alembert, Jean-Baptiste, 2, 3, 16
- differential equations
 - autonomous, 268
 - first order, 267, 269
 - linear, 267, 271
 - nonhomogeneous, 275
 - second order, 271
 - separable, 268
 - series, 156
 - series solutions, 221
- differential operator, 271
- Dirichlet, 4
- Dirichlet boundary conditions, 117
- Dirichlet kernel, 80

- Dirichlet, Gustav, 117
- domain of dependence, 18
- domain of influence, 18
- double factorial, 148
- Duhamel's Principle, 41, 49
- Duhamel, Jean-Marie Constant, 41
- easy as π , 181
- eigenfunction, 13
- eigenfunction expansion, 127
- eigenfunctions
 - complete, 119
 - orthogonal, 119
- eigenvalue, 13
- Eigenvalue problem, 13
- eigenvalues
 - real, 119
- Einstein, Albert, vii
- electric field, 43
- electric potential, 43
- electrostatics, 43
- elliptic equation, 30
- equilibrium solution, 43
- equilibrium temperature, 189
- Euler, Leonhard, 2, 3, 156
