

Interest Profiler Assignment

IO Bonus Assignment

For 5 points toward your final grade (in addition to the bonus points already available to you), complete the following assignment and write up a brief (1-2 page) summary of your findings and submit it to me by Thursday Sept 30. You can send it to me as an email attachment in MSword.

Complete the O*NET interest profiler located at: <http://www.onetcenter.org/IP.html?p=3>

Score the interest profiler questionnaire.

Report the results of your score, clearly defining each of your primary and secondary interests. In short, describe the kind of person the profiler says you are.

Report at least 2 careers you explored based on this profiler instrument and describe why or why not you think this (for each one) may or may not be appropriate for you.

Was this instrument helpful to you or not? (this last question is really feedback for me).
