*The Two Koreas and the U.S.
in the 21st Century*

Featuring Dr. Jungkun Seo

**Assistant Professor,
UNCW Department of Public and International Affairs**

Which “Korea” do you know better? Is it North Korea as an “axis of evil,” launching long-range missiles and testing nuclear weapons under the dictatorship of Kim Jong II?

Or, is it South Korea, a crucial ally of the U.S. and the world’s 11th largest trading nation, boasting big brands like Samsung, Hyundai and LG?

Dr. Jungkun Seo, a native Korean, will provide a comprehensive perspective on the challenges facing the Korean Peninsula and the implications for US-Korea relations.

Cost is \$15 including dessert and coffee.

This program is a partnership between the Landfall community and UNC Wilmington.
