

## EDN 414

### Exploring the Cultural Arts

Intern\_\_\_\_\_

Date\_\_\_\_\_

Placement\_\_\_\_\_

Grade Level\_\_\_\_\_

#### Content Area Lesson Description:

This is where you describe the content area lesson that you taught (math, science, social studies, health, etc.) fully enough that it is understandable to your peers.

#### NCSCOS Content Objectives:

Indicate the content area objectives from the standard course of study. If you are teaching on base, you'll use the objectives that are required for DOD schools.

#### NCSCOS Arts Objectives:

Indicate the arts objectives that you met with the arts inclusion. You may use the ones from our course pack or the ones from the DPI web site; whichever best fit your lesson and purposes.

#### Description of the Arts Inclusion:

This is where you describe what the students actually created or did in the content area lesson that incorporated one or more of the cultural arts.

\*You'll also want to bring something visual that represents the responses: student drawings or art pieces, instruments the children made, pictures of the bulletin board display, videotape of the performance, copies of written scripts, audio tapes of singing, etc. In other words, you will need to provide physical evidence of the children's cultural arts participation as it supported or enhanced their content area learning.
